A lot of the walkers walk/ran so by the time the runners took off, there were people all over the course!! It is a beautiful course, although a little long. Matthew's watch said 13.58 miles and other people had 13.4+ Matthew led the runners through mile 11 until the heat caught up with him and two people passed him. He still got 3rd overall (2nd male) and 1st in his age group. The course goes from the San Ramon Chapel in Sisquoc to the St. Louis de Montfort Church in Orcutt. It really is beautiful with rolling hills, great scenery, and it was well marked. Complete results are with Synergy at the following link:

From Bill, "The fields here have gotten much smaller in the last two years. I'm not sure why since it is a certified Boston qualifier, pretty flat, and a beautiful run along the ocean. The weather was very cool, which was a welcome change as the last marathon I ran in this area was in hot sun all the way. I saw two locals in the results, both in the 5K, Pam Bowman of Grover Beach and Deanna Onozuka of San Luis Obispo, although neither one is on the roster as club members."

From Heidi, "Today was a gorgeous day in Temecula. All three of us placed in top 10 in our age groups. Times were slow since we ran approximately 7-8 miles on dirt and gravel so it was hard to get traction but we loved the course. We saw rabbits along the way and Martina and Kristie saw a huge coyote while warming up. The best part was at the start where we were surrounded by hot air balloons. We were overjoyed by the balloons! You can see them in the background of the photo below.
